Box 2

Sermon notes of Rev. David Mainse's and Rev. Roy Mainse (David's father), circa 1938 thru to recently (roughly sorted by decades). Some of these notes appear to be taken on the sermons of others; folders also include assorted sermon resources, a few letters, minutes of meetings, receipts, etc. There is no indication on the notes that distinguishes David's from Roy's sermons, other than the handwriting. Early folders include issues of *The Preacher's Magazine*, with no apparent reference to Roy Mainse as a source—these might have been sermon resource materials.
