

SELECT LIST OF MAF PERSONNEL

This list, compiled during the production of the initial descriptive guide of the MAF records, reflects only the contents in the D-2 folders themselves in boxes 1-19 for staff who worked with MAF between 1945-1969. The dates refer to the year of the first contact with MAF; the fields listed are inferred from correspondence in the files. Some individuals have been omitted from this list: those whose files do not extend to more than one year, and those whose correspondence indicates that they did not serve MAF in any other capacity but office clerk.
