

PACE CARTOONS BY SLIDE SET

The Pace cartoons in this table are listed first according to the slide set they are in, then by the box. The paper tracts and calendars are at the end of the list, after box 20. Whenever possible, the title and/or the master number of the cartoon was taken from the script for the slide set it was in. If the Archives did not have the script, the title was taken from the cartoon itself and the master number was taken either from labels on the slide or was assigned by the Archives staff. The Archives staff was unable to gain access to *The Sunday School Times* for the years 1916 through 1925, so in most cases could not assign a date of publication for images from those years.
